

Create Your Own Season!®

FREE Project Idea

Americana Star

Supplies

Tin Star
Patterned Scrapbook Paper
Collage Pauge
Foam Brush
Embellishments
Tools: Paper Trimmer, Ruler, Pencil and Scissors
Optional: Photographs with images small enough to fit on the surface of your star.

Directions

1. Measure one point (arm) of the star and subtract 1/4" from each length.
 2. Cut your paper and photos to fit the sides of your star .
Hint: It may help to use a piece of cardstock or cardboard to create a template of one side of the star to use when cutting your paper and photos.
Design idea: Take your template and cut in half to allow for more options for photos and patterns.
 3. Decoupage your photos and paper to your tin star.
Decoupage Instructions: Use the Collage Pauge aka decoupage as a glue to secure your paper and photos to the tin star and as a sealer over the top of everything. If your paper starts to bubble just keep smoothing it down with your fingers or foam brush. Note: The decoupage does dry clear but the finish will depend on whether you choose matte or glossy decoupage.
 4. Apply your embellishments.
- Enjoy!
