## Festive Beaded Wine Glass Stems

*Designed by Debi Sherwood*

### Materials Needed:

Wire  
Seed, Bugle beads and a few larger beads  
1 large bead for each charm  
Eye pin  
Jewelry Pliers  
Wine glasses

### INSTRUCTIONS:

1. Place one small bead on the earring extension wire. Add the large bead and then a small bead. With your jewelry pliers turn the end of the earring extension to form a loop. Set aside.
2. Measure from the base of your wine glass to the top of the stem. Double that amount. Cut the wire pieces this length. Turn the end to make a loop. String with desired beads to form a pattern. Leave an 1/8" inch of wire unbeaded. Take the beaded earring extension that you previously beaded and thread on wire. Connect the two with a loop.
3. Twist around the stem of your wine glass. Or twist around taper candles!
