## The Easiest Bracelet Ever

*designed by Rita Fleehart*

### Materials Needed:

Beaded Fringe  
Rinestone Trim  
High Tack Double Sided Tape  
Mixed Crimp Beads - silver  
Bracelet clasp or toggle of your choice in silver

### INSTRUCTIONS:

1. Cut four 7" pieces of fringe trim. Pull off a fringe from ends if they are closer than 1/4" from end. Cut one 7" piece of rinestone trim.

2. Place one piece of fringe on table with fringe away from you. Cut a 6 1/2" piece of double sided tape and place over ribbon part of fringe, 1/4" from each end. Place a second piece of fringe on top of this, with fringe toward you. Repeat with last two pieces of fringe placing fringes between those on the first two pieces.

3. Cut another piece of double sided tape and cut it in half lengthwise. Place it down the center of the previous pieces, place the rinestone trim on top of that. Be sure to leave 1/4" at each end that is just ribbon. Use the longest size of the crimps, one on each end, close around ribbon, attach clasps to these and you're done!
