## Candle Holders Inked with Ranger Alcohol Inks

### Supply List:

Ceramic Candle Holders

Ranger Alcohol Inks:

- *Pink sample: Cranberry & Wild Plum*

- *Green sample: Lettuce & Bottle*

- *Blue sample: Stonewashed & Stream*

Ranger Alcohol Ink Blending Solution

Rub-Ons, Sticker King

Stick on gems

Ink applicator, or cotton balls

Disposable gloves

### Instructions

1. Put on gloves to keep from staining hands.
2. Take applicator and squeeze 3 drops of your lighter ink randomly onto the pad. Apply to one side of candle holder by blotting in a random pattern - do not cover surface completely.
3. On same pad, add a few drops of the blending solution and apply (on top of the ink design) using the same blotting technique. The solution makes the ink lighter.
4. Using the same pad, add a few drops of your darker ink. Blot onto same surface until desired look is achieved.
5. Note: the more you work the design, the more defined the edges become.
6. Repeat steps 2-4 for each remaining side. Let dry completely.
7. Apply the rub-ons where desired and add gems if you like.
