## Canvas Art using "Twelve by 12" paper

### SUPPLIES:

- 12 x 12 canvas
- 12 x 12 paper (We selected paper from our new collection "Twelve by 12")
- Mod Podge
- Acrylic Paint (coordinating color)
- Brushes

### DIRECTIONS:

1. Paint the sides of your canvas with paint that matches your selected paper. This is just to cover any areas that wouldn't be covered by the paper once glued on the canvas.

2. When the paint is dry spread some Mod Podge over the entire canvas.

3. Position the piece of paper on the canvas making sure it's centered. Make a slit at each corner of the paper to make it easy to fold over the sides of the canvas.
