Caramel Apple

Materials Needed:

Artificial apple
Craft stick
Acrylic paint: Honey Brown
Glue Pot with glue sticks
Gloss finishing spray

INSTRUCTIONS:

1. Spray the apple lightly with gloss finishing spray to give it a shiny finish.
2. Insert a craft stick in the apple. Dip into a hot pot of melted glue. Quickly tip it upside down and let the glue run down the sides a bit. Not too much.
3. Let the glue cool and harden completely. Paint the glue area with the Honey Brown acrylic paint.
