Cell Phone Totes *made with the Knifty Knitter Flower Loom & Spool Loom*

Materials Needed:

Knifty Knitter Flower Loom
Knifty Knitter Spool Loom
Knifty Knitter Hook
Crochet hook
Yarn needle
Bits and pieces of yarn

INSTRUCTIONS:

To make the bag:

1. Using Flower Loom, e-wrap (wrapping loops on pegs that look like series of lowercase e's) 6 pegs and knit back and forth to make flap on pouch. Make it about 3" to 4" long (or desired length).

2. Continue around loom using all pegs and continue knitting rows, until bag measures around 4". Note: Depending on the type of yarn you choose to use, these 4" may be different number of rows.

To make the handle:

1. Using Knifty Knitter Spool Loom, drop yarn down through middle of loom. Wrap 2 rows on small end of loom and knit off (pulling bottom loop over top loop and peg).

2. Knit 28 rows (or desired length). Sew handles to side of pouch or attach to top of bag.

3. Add beads, buttons, sequins, or whatever you would like to embellish your tote.
