D.I.Y. Decorative Moss Tree

Supplies

- Paper Cone
- Artificial Moss
- Hot Glue Gun
- Hot Glue Stick
- Scissors

Directions

Before we get started, the paper cones were not painted before the moss was glued on but you can if you'd like.

1. Starting from the top of the cone, measure and trim the amount of moss to go around the top of the cone.

We suggest gluing on a strip at a time as the length of moss will increase as you work your way down the bottom of the cone rather than gluing on one large strip of moss.

2. Using the hot glue gun, apply hot glue to the area of the cone where you want to adhere the moss.
3. Wrap the moss around the cone, firmly adhering it into the glue.
4. Continue steps 2 and 3 until the entire cone is covered.
5. Set aside to let it dry completely before displaying.

You can display them on candle holders, decorative plates, fabric and more!
