Easter Eggs

Materials Needed:

Here are the yarns that were used in this project, but you can use any color you want!

Available yarn and colors may vary per store.

1 ball Jiffy: Salem (appears in image on the right)

1 ball Lion Bouclé: Taffy (appears in image on the left)

Styrofoam eggs

Craft Glue

NOTE:

Only a small amount of yarn is needed to make each egg. One ball of yarn is sufficient for multiple eggs.

EGG: Apply glue to top of egg. Coil yarn around the top of egg, tucking yarn end under coiled yarn. Continue applying glue, then wrapping yarn until entire egg is covered. Cut yarn and tuck end underneath coiled yarn.
