FREE Project Idea

Fabric Wrapped Cone Trees

Supplies

Fabric
Chipboard
Ribbon (for trim)
Paper Mache Cones
Glue Gun or Strong
Double-Sided Tape
Pencil and Scissors

Directions

1. Place cone on chipboard and trace with a pencil, the base of the cone and cut out shape.
2. Cut fabric to fit cone: Wrap a piece of fabric around the cone and trim off excess material, be sure to leave about 1/2"-1" of extra fabric around the base for overlap along the seam.
3. Using a glue gun or strong double-sided tape adhere the fabric to the cone. Fold extra fabric at the base to the underside of the cone and adhere to the inside of the cone.
4. Glue a circle of fabric around one side of the chipboard piece. Make it slightly larger and fold the edges around the sides and glue/tape in place.
5. Glue/tape the fabric covered chipboard circle to the bottom of the cone, making sure the fabric covered side is facing up.
6. Trim with coordinating or contrasting ribbon. You can trim just the base, make stripes or wrap the cone with a swirl.

Repeat these steps for each additional cone. Enjoy!
