Family Montage

Materials Needed:

2 - 8" x 10" frames

2 - 4" x 6" frames

1 - 8" x 8" frame

1 - 5" x 5" frame

1 - 5" x 7" frame

Vinyl Words "Family" (#01WAP07001)

INSTRUCTIONS:

1. Prepare frames by removing the backing off of each picture frame.

2. Once you have removed the backing, bend the metal tabs to secure the glass. Clean the front of the glass to prepare the surface for the vinyl application.

3. Beginning with the first 8" x 10" frame with the front of the frame facing up, position the letter "F" so that it is centered on the glass.

4. Once you know where you would like to place the letter, remove the backing and adhere to the glass. Smooth the vinyl so that bubbles are removed. An application stick or squeegee is a great tool for the application.

5. Repeat the process for the letter "A" with the 4" x 6" frame, the "M" with the 8" x 8" frame. Put the dot in the 5" x 5" frame and the base of the "I" in the 5" x 7" frame, the "L" in the 4" x 6" frame and the "Y" in the 8" x 10" frame.

Just hang!
