FREE Project Idea

Geo Mesh Pumpkin Wreath

Supplies

- 1 Roll of Geo Mesh in Orange
- 2.5 Yards of Sparkle Green Geo Mesh
- Black Geo Mesh
- 16" Styrofoam Wreath Form
- 6 Yards Orange Floral Satin
- 1 Yard Green Ribbon
- Floral Pins
- Scissors

Directions

1. Wrap the Styrofoam form with floral satin and pin it to secure.
2. Cut the orange and green mesh into 12" pieces. They will look like rolls.
3. Pin the end of a mesh piece to the wreath form. This allows the roll to stick out, creating dimensional texture.
4. Continue until the form is covered, including the center. To fill the center, just pin the mesh pieces sideways to direct the roll of mesh.
5. Pin the green pieces at the top for the leaves.
6. Pin the black piece for the stem.
7. Make a bow with the ribbon to place next to the stem.

This will be quite large when it's finished, so be sure that the place you plan on hanging it will work.
