Graduation Card - Hats Off to the Grad

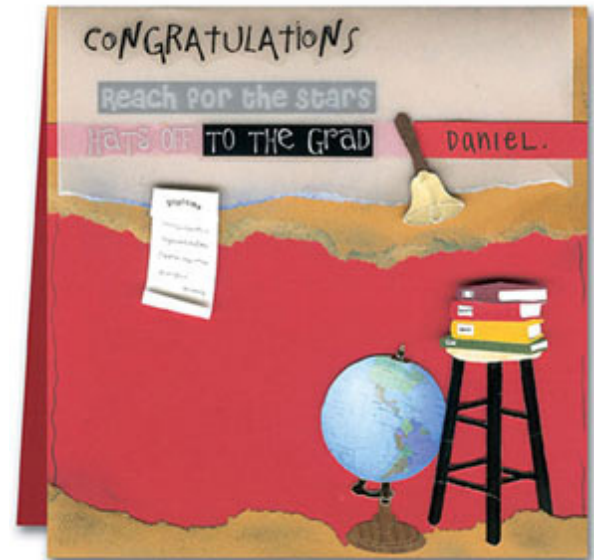

designed by Dale Nicholson

Materials Needed

Phrase Café Classic The Graduate
Jolee's Le Grande - Day At School
Cardstock: red, mustard
Plain vellum

INSTRUCTIONS:

1. Use torn cardstock as both a ground area and top border on a cardstock created card. Tear a strip of vellum for the top, too. Chalk all torn edges with dark brown and dark blue to coordinate with stickers.
2. Position all sticker embellishments as desired or as shown. Use a series of phrase stickers to communicate your sentiment -- it's ok if one is less dominant. Adhere all pieces in place on card front.
3. Attach a strip of thin red cardstock for drama and personalizing at the top of the card.

Tips For Success:

When positioning stickers under a vellum overlay, use the release paper as a guide. Simply cut out the sticker and then fold back the clear release paper a tiny bit to expose some of the sticker adhesive. Once you are happy with the sticker position, then adhere the sticky part and pull off the rest of the release paper.
