Cloth Napkins

SUPPLIES:

1 yard 36" fabric (cotton or a cotton blend is best)
(Note: makes 4 napkins)
Fabric Scissors
Coordinating Thread
Sewing Machine
Iron (if you do not have a serger)

DIRECTIONS:

The best size is an 18" square. Out of a yard of 36" fabric you can make 4 napkins.

1. First, cut down the fold line for 2 halves. Then fold these 2 pieces of fabric in half again and cut. Now you have 4 pieces of fabric, 18 inches each.

2. On each napkin, fold and press each edge 1/8" and then fold and press again 1/8". The selvage is now covered.

3. Sew close to the inside folded edge with matching thread.

Note: If you have a serger, you can just go around each edge without folding and pressing.

That's it!! Go and have some fun with great fabrics.
