Perler Beads

These small, assorted color Pegboards are designed for use with Perler Beads. Simply place beads on the Pegboard, cover with Ironing Paper, then fuse beads together with a household iron. Once beads are fused together, Pegboards can be reused. Ages 5 and up.

Videos available on their website: <http://www.eksuccessbrands.com/perlerbeads/creative/videos.htm>

1. Working on a flat surface, create your design by placing beads one by one on a Perler pegboard. Follow our patterns or be creative.
2. Adult: Preheat a dry household iron to the medium setting. When carrying the bead design to the iron, be careful not to tip or bump the beads from the pegboard!
3. Cover the beads with the ironing paper. Keeping the iron level, gently iron the beads in a circular motion for about 10 seconds to fuse the beads evenly.
4. Once the design is cool, peel off the ironing paper. Lift your design from the reusable pegboard and flip the design over onto your ironing surface.
5. Cover it with the ironing paper and iron the other side to fuse it evenly.

WARNING: The ironing must be done by an adult only. Some irons may emit steam. Please keep children at a safe distance.
