7. Apply a dark colored paint to the plaque, will be the base to display the blocks.
8. Once the plaque is dry, apply a thick coat of Crackle Medium to it.
9. Wait for the Crackle Medium to become tacky (following the instructions on the bottle), apply a light colored paint on top. The paint will crackle within minutes.
10. Set the plaque aside to let dry.
11. Once dry, glue the letters EEK onto the base, like the photo; or you can choose to use any Halloween themed words you like.

Now, this next step is completely optional, but Pershette wanted to create movement for this piece. She painted a little candle cup, drilled a screw through it, into the block. When she turned the block upside down, the candle cup rested on dowels that were drilled into the base of the display. This step is completely optional.
