

Create Your Own Season!®

FREE Project Idea

Redneck Wine Glass & Coaster

Supplies

Mason Jar, Pint
Glass Candlestick, approx.. 4" tall
Duck Tape
Cork, at least 4"x4"
Fabric strip, 1"x 18"
E-6000 Glue
Scissors
Pencil

Directions

E-6000 is a strong adhesive. Before you begin, be sure you are in a well-ventilated area.

1. Measure and cut the amount of fabric you need to wrap around the top of the mason jar, plus 6"-8". Using a square knot, tie the fabric around the top of the jar. Trim the ends of the fabric as needed.
2. Turn the mason jar over (mouth side down) and apply E-6000 to the top of the candlestick holder and firmly adhere to the bottom center of the mason jar.
3. Set aside and let dry.
4. Lay the jar lid on the piece of cork and trace the lid shape with a pencil. Cut out the circle approximately ¼" smaller than the line. Use a small amount of E-6000 to glue the cork to the top of the lid.
5. Run the Duck tape around the jar ring until completely covered. Tear or trim the tape so that it is flush with the edge of the ring.
6. Glue the top outer edge of the lid to the underside of the lid ring with a small amount of E-6000 glue. Set aside and let dry.

You can embellish your glass with beads or leave unadorned. Enjoy!
