## Rub On Transfers

Apply Rub-On Transfers to any clean, dry surface.

### Here's how:

1. Remove the backing sheet and position the transfer on the desired hard surface. Hold securely during the next step.

### Here's a Shopping List for What You'll Need:

Any surface you wish to use.  
Glass ornament found at Ben Franklin was used for this project.

2. Apply by rubbing firmly over the transfer with the enclosed stick or a smooth blunt object.
3. Remove sheet carefully. To insure a strong bond, cover the transfer with the backing sheet and rub over it.
