## Sculpey Amazing Eraser Clay Cool Car

*Project courtesy of [sculpey.com](http://sculpey.com)*

### Materials Needed:

#### **Sculpey Eraser Clay:**

Green, blue, pink, yellow, purple

Needle tool or toothpick

Oven set to bake reliably at 250 degrees

### INSTRUCTIONS:

Make 1 large green ball, 2 medium green balls (for hood and trunk), 2 green axles, and 4 green fenders.

Make 4 small blue balls for wheels, 4 tiny pink balls for hubcaps, 4 tiny yellow balls for headlights, and 4 super tiny purple balls in the middle of the headlights.

Make 4 purple crescent shapes for wheel wells and 2 pink worms for bumpers. Also 2 tiny blue pieces for license plates.

Press the large green ball onto the work surface to flatten the bottom. Press the hood and trunk into place on each end of the green ball. Lift the whole car body up gently and put the axles in place underneath.

Press the fenders in place on each side of the hood and trunk.

Press the wheels in place where the fenders meet the body. Press the purple wheels wells over the top of the wheels.

Press the hubcaps in place.

Press first the yellow headlights onto the front of each fender and press a purple spot in the middle of each.

Press the pink bumpers on the front and back.

Press the license plates into place.

Score the window areas with a toothpick.

Bake at 250 for 10 minutes.
