## Shirt Card

### Materials:

10" x 6" printed paper for shirt  
2 tiny buttons  
Tacky Glue  
Double Stick Tape  
5.5" x 11" cardstock for card  
Washi paper scraps for embellishment

### Directions:

Fold the cardstock in half to make a 5.5" x 5.5" square card. Take a 5" x 2" strip of washi paper and tear along the length of one side. Align the straight edge to the fold of the card and glue washi paper in place. Tear a few smaller strips and glue to the front of the card. Place the shirt on the front of the card at an angle. Adhere shirt to the card with double stick tape.

On the inside of the card, you can add a strip of the printed paper you used for the shirt. Add strips of washi paper and write "Happy Father's Day!".
