## Soap Making

Looking for a gift for a friend, a teacher, a neighbor or someone in your family.  
Don't look further, soap making as never been so easy.

### Here's What You'll Need to Start your Project:

Soap made simple. A beautiful book, sure to inspire.  
Between the covers of this book, you'll find pages packed  
with projects and instructions.

Always popular, our glycerine base is a sensuous moisturizing  
formula, rich in Vitamin E with no animal products. Add your  
own favorite colors and scents to make a personalized  
collection of soaps. Also some of the world's oldest and best  
natural soap bases. All are free of fillers or alcohol, and each  
has it's own unique use. Choose Olive Oil for hydration, Hemp  
Oil for healing damaged skin, Goat's Milk for sensitive skin and  
Coconut for soft and lush lather.

With so many choices, it's difficult to pick just one or two. Pick your favorite metal or plastic molds from a selection of traditional and whimsical shapes.

Pure, natural, exotic and intense, essential oils give your soap and candles strong and lasting fragrance. Each vial is enough to scent 10 lb. of soap or candlewax. Consider lavender, peppermint, eucalyptus, clove or others.

And the perfect touch to finish your soaps. Add real bits of herbs, flowers and other natural wonders to add another element of texture and interest.
