FREE Project Idea

Fabric Covered Magnetic Board

Supplies

- Frame, Wood Board or Panel
- Metal Sheet
- Fabric
- Spray Adhesive
- E-6000
- Acrylic Paint
- Scissors
- Paintbrush
- Decorative Metal Trim (optional)

Directions

For this project, Christy used a wooden 12" x 12" panel, but you can use a frame, board, plaque, etc.

1. Using the paintbrush, apply paint in the color of your choice to the frame.
2. Set it aside to let dry.
3. Measure and cut the fabric to fit onto the metal sheet, leaving an extra inch in height to wrap around the metal sheet.
4. Apply spray adhesive to the sheet and place the fabric on top of it, wrapping the top and bottom ends towards the back of the metal sheet.

Create Your Own Season!®

FREE Project Idea

Be sure to smooth out any wrinkles before letting the sheet dry.

5. Insert the metal sheet into the frame or if you are using a board or panel, adhere it with glue.

After the glue dries, it's ready to hang!

If you are not using a frame, add a sawtooth hanger, wire or ribbon to the back of the board or panel to hang.

Feel free to add embellishments of your choice to the board.

Christy embellished the panel with decorative metal trim. She applied patina to give the trim a distressed look, then applied patina glaze over the top and adhered it to each side of the panel.
