How-to: Make Your Own Stamp

Supplies

- 6mm Foamies Sheet
- Die
- Wooden Cut-Out Shape (we used a wooden heart)
- Glue Dots
- Scissors

Directions

Any materials you purchase at our store, such as paper, foam sheets, material, etc. gives you FREE use of our Die Cut Center.

If your die cut machine cannot handle the 6mm thick foam sheet, then use our Die Cut Center.

1. Select a die of your choice and cut the shape from the foam sheet.

You can use any color foam to make your stamp.

Christy used a wooden heart for her stamp base, but you can use any shape wood, acrylic block or another material to use as the "base" of the stamp.

2. Use glue dots to adhere the die cut foam to the bottom of your wooden cut-out shape.

Now, it's ready to use!
