We are going to add dimension to the photos by mounting them onto small wood squares. Or, if you prefer, you can also glue the photos directly onto the paper and even add a paper frame to each one to make them stand out. If you want to add dimension, continue to follow the steps below.

6. Using the foam brush, paint the small wood squares in the color of your choice.

If you cannot find small wood squares, you can also cut foam board to the desired sizes.

7. Set them aside to let dry.

8. Trim your photos to fit the size of the square and adhere them onto the squares using Mod Pod, then seal the photos with a thin coat of Mod Podge and set them aside to let dry.

9. Adhere the small wood squares to the desired area of the frame and set it aside to let dry.

Once dry, it's ready to hang!
