3. Bend the chenille stems in half and wrap them around your finger to create a corkscrew shape. Separate them slightly so there is some space between the two ends.
4. Tie raffia into a bow. Trim the ends if desired.
5. Attach the chenille stems at the center first to the upper part of the pallet. Then attach the raffia bow on top.
6. Use the white Posca Pen first to draw the eyes, fill, then used the black to create pupils.
7. Pull the ribbon through the hole on top of the bell and glue the ribbon around the bottom of the surface, centering the bell.
