

Quilter's Patch

2025 Saturday Sampler

Quilter's Corner at Ben Franklin Monroe

February 1, 2025

Nine Patch Daisy Block

Step 1

Gather your fabrics for your flowers. Make your nine patch with your fabrics. The pattern shows which way to press your seams. If you follow the pressing directions your rows will nestle together and your corners will match up. Pinning your pieces at each side of your matched seams and using your stiletto will help line your pieces up too.

Make 2 large and 1 small 9 patch flower set.

Step 2

Leaves- I lined my background and leaf fabrics up together to keep them straight.

Draw a diagonal line on the back side of your leaf fabric. Make sure your diagonal line is oriented the right way to get your leaf angled correctly. Sew a tiny bit towards the corner of your drawn line. Trim $\frac{1}{4}$ " away from the drawn line and press.

Repeat for the remaining leaves.

Step 3

Assemble your stems. Arrange the stem/leaf combo's according to your pattern. I arranged mine on my design wall so I could keep everything together and assemble without mixing my pieces. Follow the pressing directions in your pattern.

Step 4

Assemble your flowers and sew your flowers rows together.

Petunias Block

Step 1

Normally I would advise you to make half square/quarter square triangles differently, but this time you need to follow this triangle method. Because we are making pinwheels, the fabrics need to be positioned in a certain spot to make the pinwheel spin.

Gather your fabrics and cut to the specifications in your pattern.

It really helps to be able to lay your pieces out in the right position.

Sew your background and accent triangles together

Sew your background/accent to the main flower fabric. Trim to the size listed in your pattern. Make 4 units per flower.

Step 2

Arrange your pieces to form a pinwheel. Sew the top 2 together and the bottom 2 together pressing to opposite directions.

Sew your rows together matching your center seam. Pin to keep your seams together. Make 3 flowers

Step 3

Assemble the 4 patches for your leaves.

Press in opposite directions according to your pattern. I found my stiletto to be helpful here as well as my best press/flatler spray.

Step 4

Assemble your stem units

Step 5

Assemble your flower units.
