Ben Franklin® Temperature Blanket Crafts & Frame Shop

Planner Guide

Temperature blankets are a fun and easy way to journal through yarn! What makes them unique is it all depends on the color palette you choose and which location you are keeping track from. You can create a striped blanket that reflects the changing of the seasons all year long or you can create one for just a few months. Experiment with time frames and temperatures (or another subject like moods!) to also create table runners, wall hangings or even scarves!

Yarn Used: Premier Basix	Color Name & Number	Temperature Range	KNIT VERSION Row 1 = Day 1
